

## IRC C-Suite Summit in New Delhi Discussed FutureReady Leaders

**March 6<sup>th</sup>, 2019**

IRC Global Executive Search Partners held IRC Asia Pacific (APAC) C-Suite Summit themed “Transforming the Leaders: To Be FutureReady”. C-suite executives from 11 countries explored how leadership thinking & behaviour needs to change to prepare for the future.

The largest C-suite thought leadership event in IRC’s history was held in The Leela Ambience Gurugram Hotel & Residences in New Delhi, India, on Friday, Feb 22<sup>nd</sup>, 2019.

IRC partners from 11 countries across the Asia Pacific region and C-suite executives from various industries, including automotive, energy, e-commerce, consumer, retail, healthcare, life sciences and technology, took part in the summit. A keynote speech was delivered by Prashant Tandon, Co-Founder & CEO of 1mg, India’s largest digital health platform. Following the speech, participants discussed what organisations were doing to get future-ready and the tools CEOs and emerging leaders have available to help them succeed in today’s disruptive world.

“New Delhi provided us with a vibrant and energising environment in which to catch up with colleagues from across the regions and further build relationships. In addition, we were challenged by an engaging external speaker who provided us with insights into leadership from one of India’s most successful digital start-ups,” says Rohan, Carr, IRC President.

Gurdeep Hora, IRC Asia Pacific Regional Leader, concludes: “It was a pleasure to hear highly animated, participative and interactive roundtable discussions and presentations. The CEOs and CHROs analysed the future challenges in the context of a dynamic environment where nothing is certain; neither the technology nor processes; and neither consumer expectations nor logistics. FutureReady leaders demonstrated that they can navigate this complexity with the simplicity of focus and approach. But, then, becoming Simple is a very Complex process!”

An IRC leadership team had shaped the structure and focus of the summit after surveying leaders across Asia Pacific. Following the summit IRC Institute, the global thought leadership platform of IRC, will now develop focused content pieces based on the discussions.
