

IRC Global Conference Shanghai: Driven by Innovation & Agility

August 3rd, 2017

IRC Global Executive Search Partners, the world's largest executive search alliance, will hold their next Global Conference in Shanghai on October 12-13, 2017. "Innovation & Agility: The New World" is the theme of the event.

Global leaders face challenges and opportunities resulting from global connectedness and volatility each and every day. The international environment is changing – not only socially, politically and economically but also due to new technologies transforming working and communication stereotypes. Key to success is an innovative and agile approach.

"The IRC Global Conference is always a great opportunity for us to share best practices and innovative ideas with each other and our guests. We in IRC believe an open and agile mindset is a critical asset of today's and especially tomorrow's leaders born in the information and technology driven world. That is why we are focusing our conference on "Innovation and Agility" in a pulsing city in the middle of the rapidly growing China market. I am sure the learnings that our partners will take from this exceptional event will be of a great help for their clients all over the world," says Patrick Westerburger, President of the IRC Executive Board.

An expert C-suite panel discussion organised in cooperation with the IRC Institute, our global thought leadership community, will be an integral part of the IRC Global Conference program. Leaders from different industries invited by IRC will discuss challenges and opportunities that innovation and disruption bring to their companies and how new technologies and digitisation impact human capital and global talent leadership.
